EDUCATION

Palos Verdes Peninsula High School	4.5 (w), 3.8 (uw) GPA
San Diego State University	3.5 GPA
(B.S. in Computer Science, Minor in Mathematics)	

EXPERIENCE

Artificial Intelligence Urban Computing Research Assistant (September 2024-Present)

- Using a diffusion model based STGAIL to help study and gather traffic information in urban areas.
- Implemented skills like Pytorch and TensorFlow.

Coding Minds Instructor (April 2024-Present)

- Teach students new skills such as Java, Python, and Web Development.
- Create exercises and homework for students to complete.

Urban Youth Park Coach (May 2023-August 2024)

- Worked as a gymnastics/parkour instructor for kids 4-15.
- Gave private and 1 on 1 lessons.

PROJECTS

Brain Tumor Segmentation

- Detecting brain tumors from brain scans using U-Net image handling

AI Voice Clone

- Uses an AI model to take audio clips of client, turn them to spectrograms, and replicate their voice based on a user input through text in Python.

Portfolio

- Created in HTML, CSS, and JavaScript

SDSU

Clubs

Artificial Intelligence Club

- Project Lead
- Brain tumor segmentation and text-to-speech synthesis

eLeet Coders Club

- We build Leetcode resumes through collaboration as well as hearing from guest speakers.

Tau Kappa Epsilon Fraternity

- Philanthropy Event Organizer

Related Coursework

- Intermediate Comp Sci, Data Structures, Machine Organization, Advanced Programming Languages, and Computer Architecture, Calculus 1 & 2, Physics 1 & 2, Discrete Mathematics, Linear Algebra, Statistics
